

NIST CSF 2.0 Self-Assessment Template

Rate your organization 1 (Initial) to 5 (Adaptive) for each subcategory across all 6 NIST CSF 2.0 functions.

GOVERN (GV)

| # | Subcategory | 1 | 2 | 3 | 4 | 5 |
|---|------------------------------------------------|---|---|---|---|---|
| 1 | Organizational context informs risk management | | | | | |
| 2 | Risk strategy established and communicated | | | | | |
| 3 | Cybersecurity roles and authorities defined | | | | | |
| 4 | Cyber included in enterprise risk management | | | | | |
| 5 | Supply chain risk management integrated | | | | | |

IDENTIFY (ID)

| # | Subcategory | 1 | 2 | 3 | 4 | 5 |
|---|--------------------------------------------------------|---|---|---|---|---|
| 1 | Assets inventoried (physical + software) | | | | | |
| 2 | Business environment and critical functions documented | | | | | |
| 3 | Legal/regulatory requirements identified | | | | | |
| 4 | Vulnerabilities identified and validated | | | | | |
| 5 | Risk assessment processes maintained | | | | | |

PROTECT (PR)

| # | Subcategory | 1 | 2 | 3 | 4 | 5 |
|---|-------------------------------------------------|---|---|---|---|---|
| 1 | Identity management and access control in place | | | | | |
| 2 | Staff trained in cybersecurity awareness | | | | | |
| 3 | Data security protections implemented | | | | | |
| 4 | Platform security maintained | | | | | |
| 5 | Infrastructure resilience ensured | | | | | |

DETECT (DE)

| # | Subcategory | 1 | 2 | 3 | 4 | 5 |
|---|---------------------------------------------|---|---|---|---|---|
| 1 | Continuous monitoring for known threats | | | | | |
| 2 | Anomalous activity detected and analyzed | | | | | |
| 3 | Events correlated from multiple sources | | | | | |
| 4 | Detection processes tested regularly | | | | | |
| 5 | Detection info communicated to stakeholders | | | | | |

RESPOND (RS)

| # | Subcategory | 1 | 2 | 3 | 4 | 5 |
|---|------------------------------------------------|---|---|---|---|---|
| 1 | Incident response plan maintained | | | | | |
| 2 | Incidents triaged, analyzed, escalated | | | | | |
| 3 | Response coordinated internally and externally | | | | | |
| 4 | Root cause analysis performed | | | | | |
| 5 | Plans improved from lessons learned | | | | | |

RECOVER (RC)

| # | Subcategory | 1 | 2 | 3 | 4 | 5 |
|---|----------------------------------------------|---|---|---|---|---|
| 1 | Recovery plan maintained | | | | | |
| 2 | Recovery activities prioritized and executed | | | | | |
| 3 | System integrity verified before restoration | | | | | |
| 4 | Improvements incorporated from lessons | | | | | |
| 5 | Communications managed during recovery | | | | | |

Levels: 1=Initial (ad hoc) | 2=Repeatable | 3=Defined (documented) | 4=Managed (measured) | 5=Adaptive (continuous improvement)
